## 1 Corporate information

Next2 Door Living Private Limited ("the Company") is a private Company and incorporated under the provisions of Companies Act ("the Act") on 11/01/2018. The Company is primarily engaged in the business of operating, branding, marketing and overall management of hostels, serviced apartments, guest houses, leased apartments and other forms of accommodation services by itself or through franchises or licensed affiliates.

Pursuant to the approval of the Registrar of Companies, CPC vide SRN AB5584769 dated 29/07/2025, the Company was converted into a Public Limited Company and its name was changed to Next2 Door Living Limited with a new CIN U55100DL2018PLC328342.

These financial statements for the year ended March 31, 2025, pertain to the period when the Company was a Private Limited Company, though they are signed under the Company's current name and CIN.

## 2 Significant accounting policies

The accounting policies set out below have been applied consistently to the periods presented in these financial statements.

a. Basis for preparation and presentation of financial statements

The financial statements of the Company have been prepared under the historical cost convention on the accrual basis of accounting in accordance with the Generally Accepted Accounting Principles in India ("GAAP") and comply with the Accounting Standards specified under section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014, the other relevant provisions of the Companies Act, 2013 (including provision of Companies Act, 1956 which continue to remain in force, to the extent applicable), pronouncements of the Institute of Chartered Accountants of India. The financial statements are presented as per Schedule III to the Companies Act, 2013 and in Indian rupees.

**b. Use of estimates**

The preparation of financial statements in conformity with GAAP requires management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, income and expenses and the disclosure of contingent liabilities at the date of financial statements and the results of operations during the reporting periods. Examples of such estimate include future obligations under employee benefit plans, income taxes, useful lives of tangible assets and intangible assets, impairment of assets, valuation of derivatives, provision for doubtful debts etc. Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable. Actual results could vary from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Appropriate changes in estimates are made as the management becomes aware of the changes in circumstances surrounding the estimates. Any revision to accounting estimates is recognised prospectively in current and future periods. Effect of material changes is disclosed in the notes to the financial statements.

c. Current–non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria in accordance with Schedule III to the Companies Act, 2013 set out below:

## Assets

An asset is classified as current when it satisfies any of the following criteria:

- a. it is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;
- b. it is held primarily for the purpose of being traded;
- c. it is expected to be realised within 12 months after the reporting date; or
- d. it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Current assets include the current portion of non-current financial assets.

All other assets are classified as non-current.

## Usabilities

A liability is classified as current when it satisfies any of the following criteria:

- a. it is expected to be settled in the company's normal operating cycle;
- b. it is held primarily for the purpose of being traded;
- c. it is due to be settled within 12 months after the reporting date; or

d. the company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include current portion of non-current financial liabilities.

**d. Revenue recognition**

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured

**e. Income taxes**

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income Tax Act, 1961 enacted in India and tax laws prevailing in the respective tax jurisdictions where the company operates. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the reporting date. Deferred tax liabilities are recognized for all taxable timing differences. Deferred tax assets are recognized for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. In situations where the company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits.

At each balance sheet date the Company re-assesses unrecognized deferred tax assets. It recognizes unrecognized deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realized.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set-off current tax assets against current tax liabilities and the deferred tax assets and deferred taxes relate to the same taxable entity and the same taxation authority.

**f. Cash and cash equivalents**

Cash and cash equivalents comprise cash balances on hand, cash balance with bank, and highly liquid investments with original maturities, at the date of purchase/ investment, of three months or less.

**g. Earnings per share**

The basic earnings per share is calculated by dividing the net profit after tax for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the period is adjusted for events of bonus issue and share split. For the purpose of calculating diluted earnings per share, net profit after tax during the year and the weighted average number of shares outstanding during the year are adjusted for the effect of all dilutive potential equity shares. The dilutive potential equity shares are deemed converted as of the beginning of the year unless they have been issued at a later date. The dilutive potential equity shares are adjusted for the proceeds receivable had the shares been actually issued at fair value (i.e. average market value of the outstanding shares). Anti-dilutive effect of any potential equity shares is ignored in the calculation of earnings per share.

**h. Contingent liabilities and provisions**

A provision is recognized when the company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation.

**i. Tangible, intangible fixed assets, depreciation and amortization**

**i. Tangible fixed assets**

Tangible fixed assets are stated at cost, net of accumulated depreciation and accumulated impairment losses. The cost comprises purchase price, borrowing costs if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Subsequent expenditure related to an item of tangible fixed asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. All other expenses on existing tangible fixed assets, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

Advances paid towards acquisition of tangible fixed assets outstanding at each Balance Sheet date are shown under long-term loans and advances and cost of assets not ready for intended use before the year end are shown as capital work-in-progress.

**ii. Intangible fixed assets**

Intangible assets that are acquired by the Company are measured initially at cost. After initial recognition, an intangible asset is carried at its cost less any accumulated amortization and any accumulated impairment loss.

Subsequent expenditure it is capitalized only when it increases the future economic benefits from the specific asset to which it relates. Expenditure for acquisition and implementation of software systems is recognized as part of the intangible assets.

A tangible/intangible asset is derecognized on disposal or when no future economic benefits are expected from its use and disposal. Losses arising from retirement and gains or losses arising from disposal of a tangible/intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss. Assets retired from active use and held for disposal are stated at the lower of their net book value and net realizable value and are shown under 'Other current assets'.

Expenses recorded under Intangible Assets under development are recorded as Intangible Assets from the point at which the asset is ready for its intended use.

**iii. Depreciation and amortisation**

Depreciation is provided using the Written down Value Method ("WDV") as per the useful life specified in part 'C' of schedule II of the Companies Act, 2013.

Depreciation on assets added/disposed off during the year has been provided on pro-rata basis with reference to the date of addition/disposal.

**j. Impairment of assets**

The Company assesses at each balance sheet date whether there is any indication that an asset may be impaired. If any such indication exists, the company estimates the recoverable amount of the assets. If such recoverable amount of the asset or the recoverable amount of cash-generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the profit and loss account. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciable historical cost.

**k. Leases**

Lease of assets under which all the risk and benefit of ownership are effectively retained by the lessor are classified as operating lease. Lease payments are recognized as an expense in the Statement of Profit and Loss on a straight line basis over the period of lease.

**l. Employee Benefits**

**Short-term employee benefits**

All employee benefits falling due within twelve months of the end of the period in which the employees render the related services are classified as short-term employee benefits, which include benefits like salaries, wages, short-term compensated absences, performance incentives, etc. and are recognised as expenses in the period in which the employee renders the related service and measured accordingly.

**Post-employment benefits**

Post-employment benefit plans are classified into defined contribution plans and defined benefit plans in line with the requirements of AS 15 on "Employee Benefits". Post-employment employee benefits are recognized as an expense in the Statement of Profit and Loss for the year in which the employee has rendered services. The expense is recognized at the present value of the amount payable determined using actuarial valuation techniques. Actuarial gains and losses in respect of post-employment and other long-term benefits are charged to Statement of Profit and Loss.

**Leave encashment**

The Company does not have a policy of providing for leave salary in respect of unutilized leaves lying at the credit of the employee at the time of retirement or otherwise.

## b) Rights, preferences and restrictions attached to equity shares

The Company has one class of equity shares having a par value of Rs. 10 each. Each shareholder is eligible for one vote per share held. In the event of liquidation, the equity shareholders are eligible to receive the remaining assets of the Company after distribution of all preferential amounts, in proportion to their shareholding.

## c) Rights, preferences and restrictions attached to preference shares :

The 0.01% Compulsorily convertible preference shares (CCPS) shall be converted into equity shares at any time at the option of the holder of the CCPS, subject to applicable laws. Each CCPS shall automatically be converted into equity shares upon the earlier of: (i) expiry of 19 (nineteen) years and 11 (eleven) months from the closing date; or (ii) QIPO. Each CCPS shall be convertible into 1 (one) equity share of the company at an initial conversion ratio of 1:1, unless adjusted based on future bonus issue, issuances arising from exercise of any stock options, share splits, consolidation, reorganisation, recapitalisation, reclassification or similar events with respect to the share capital of the company. The dividend rate on these preference share shall be 0.01% per annum (non-cumulative) in addition to and after payment of the preferential dividend, each CCPS would be entitled to participate pari passu in any cash or non-cash dividends paid to the holders of securities of all other classes (including equity shares) or series on a pro rata, as-if-converted basis.

VK

BN

Explanation for the change in the ratio by more than 25% as compared to the preceding year:

- Debt-Equity Ratio (%)**: Due to the increase in profit and decrease in debt in current year as compared to the last year.
- Debt service coverage ratio (%)**: Due to the increase in profit and decrease in debt in current year as compared to the last year.
- Return on Equity Ratio**: Due to the increase in profit after tax and shareholder's equity.
- Trade Payables Turnover Ratio**: Due to the increase in "Cost of services" and in Trade payables as compared to last year.
- Net Capital Turnover Ratio**: Difference due to increase in Current Assets and Current Liabilities.
- Net Profit Ratio (%)**: Due to the increase in sales and profit during the year.

30 Contingent liabilities to the extent not provided for - Nil
